

ADVANCE YOUR CAREER & INCREASE YOUR EARNING POTENTIAL WITH AN MBA!

National-Louis University and El Valor are committed to assisting working professionals to develop the necessary skills to become leaders in their fields. To this end, National-Louis University and El Valor have designed a community based MBA program created to increase the pool of managerial talent from historically underrepresented populations to address the need for diversity in public and private sector organizations.

El Valor and National-Louis University understand the complexity and needs of working professionals. With this in mind, the MBA program is taught in a cohort model by highly qualified staff and augmented by access to one-on-one private math tutoring, a state of the art computer lab and access to study rooms. The community based cohort model allows students to develop and sustain a diverse and talented networking base. In addition to the highly talented members of the cohort itself, students are exposed to a speaker's bureau and many other networking opportunities tailored to introduce students to influential leaders in both private and public arenas.

The MBA program is close to where you live or work. El Valor and National-Louis University have carefully selected a convenient location: El Valor's Carlos H. Cantu Center located at 2434 S. Kildare Chicago, IL 60623. Recognizing that education should not be cost prohibitive, El Valor and National-Louis have negotiated an **unprecedented tuition rate** for those who are part of the cohort program. National-Louis University offers an unparalleled education at an unbeatable rate.

School	Tuition
National-Louis University (Price only for El Valor Cohort)	Under \$20,000.00
Northwestern University (Part Time)	\$100,744.00
Northwestern University (Executive Program)	\$64,000.00
